PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is urged lock element 21 that reciprocates in the bore of the ball valve that prevents and allows the ball valve to rock in combination with a plug body, a socket main cylinder, and a casing wherein the ball valve is rocked by the plug body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Makishima discloses a rockable ball valve having a plug body, a socket main cylinder, and a casing wherein the ball valve is rocked by the plug body. Kouda, Spurling, and Burquier disclose ball valves with safety features.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Bastianelli whose telephone number is (703) 305-0058. The examiner can normally be reached on M-F (9:00-6:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Mancene can be reached on (703) 308-2696. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
